

The Right Steps

To A Well Behaved Dog

“Day Training for Dogs”

Board & Train without the Boarding! Sound intriguing?

In sheer frustration have you considered shipping your dog out to a Board & Train Program? **WAIT!** THERE IS A FANTASTIC ALTERNATIVE, IN THE COMFORT OF YOUR HOME! We come to you and train in your home environment, where you need it the most.

- Do you avoid walking your dog because he happily drags you down the street?
- When greeting people on your walk he jumps on them with sheer excitement?
- Do you avoid having friends over because your dog jumps and slobber all over your guests?
- When the door bell rings chaos incurs and your frustration is to the point you want to scream?
- You can no longer watch T.V. due to a slobbery ball dropped in your lap and/or non-stop barking when you don't?
- You cannot eat dinner without a drooling and/or barking begging dog under your feet?
- There are no basic manners, cues, and safety behaviors that work (examples: sit, down, come, stay, wait, loose leash walking, heel, emergency recall, to name a few basic life skills).

We schedule an Initial Consultation/Evaluation to see what you are dealing with, then we create a customized program. Each program is tailored to your dog's needs and your goals. We only use positive training methods! Training is safe and fun in your home. Call us now—Don't wait!
